

Darfur, Sudan: Confirmed Damaged and Destroyed Villages, February 2003 - October 2007

Villages in Darfur confirmed as destroyed: 2,066
Villages in Darfur confirmed as damaged: 685

NOTE: The data represented on this map do not provide information on when attacks occurred within the span of the conflict, nor do they display all destroyed and damaged villages in Darfur. The map portrays villages that the U.S. Government has confirmed as destroyed or damaged between February 2003 and October 30, 2007. The large number of damaged and destroyed villages identified and added to our database since the previous HIU map was produced in March 2007 does NOT correspond to a proportionally large increase in destruction during the March to November 2007 period. There is currently insufficient data to determine when damage or destruction occurred.

- Confirmed destroyed village (evidence of complete destruction of a village)
- Confirmed damaged village (evidence of partial destruction of a village)
- International boundary
- Sudanese state boundary
- Major road
- Minor road or track
- State capital, Settlement
- IDP location in Sudan (estimated August 2007)
- Refugee camp in Chad (estimated October 2007)
